

3 November 1972

MEMORANDUM FOR: All Support Careerists

SUBJECT : Civil Service Discontinued Service Retirement
and CIA Involuntary Retirement

STATINTL

REFERENCE : dtd 13 July 1972, same subject

1. Referent Notice informed employees that, effective 1 July 1972, liberalized retirement options were available only to employees in those organizational components and/or occupational categories, as defined by a Deputy Director or the Head of an Independent Office, where a true surplus exists.

2. I have determined that there is a surplus of personnel in the Support Career Service and thus find it necessary to effect a reduction. I have, therefore, authorized for the remainder of FY-73 the use of Discontinued Service Retirement under the Civil Service Retirement System and Involuntary Retirement under CIARDS for Support Careerists in grades GS-11 through GS-18.

3. To retire under these provisions an employee must have:

Civil Service Retirement System

a. Attained 50 years of age and completed 20 years of creditable Federal service, or

b. Completed 25 years of creditable Federal service at any age.

CIA Retirement and Disability System

c. Completed 25 years of creditable Federal service at any age and have 10 years of service with CIA and 60 months of qualifying service.

4. Careerists who are willing to assist the Support Career Service in reducing this surplus by accepting Discontinued Service Retirement or Involuntary Retirement, or desire additional information, should contact the ACMO/DDS.
